AhmedElmehalawi AhmedElmehalawi

Profile

Passionate Software Engineer with +5 years of hands-on experience in software development, with many hats. My core expertise lies in web development and .NET technologies, and I've successfully delivered robust, scalable solutions across diverse domains including Fintech, E-commerce and GIS.
Backed by a solid academic background —a Bachelor's in Computer and Systems Engineering, along with a postgraduate professional diploma in Systems Development from ITI— I blend technical proficiency with real-world application to solve complex challenges.
I'm a dynamic and driven individual, always learning, adapting, and striving to grow every single day. Whether it's picking up a new framework or refining a solution, continuous improvement is at the heart of my professional journey.

Professional Experience

Link TSP, *Senior Backend Engineer* May 2025 – Present

- Contributed to the development of enterprise-grade e-commerce platforms for high-profile clients including **Concrete, Almorshedy, Pico, La Poire, and Blue Apple**, serving **+80K daily users** across multiple brands.
- Extended the functionalities of our e-commerce solution using Modular Architecture, Clean Architecture, DDD, Event Sourcing and CQRS.
- Developed a comprehensive Reporting Module providing detailed statistics and insights into client e-commerce performance, including interactive cards, tables, drill-down views, CSV export, filtering, and sorting functionalities.
- Integrated our e-commerce solution with PrismERP to sync data between the 2 systems.
- Mentored junior developers, conducted code reviews, and enforced best practices in development and DevOps.

Freelance, *Senior Software Engineer* Jan 2024 – Present

- Collaborated with clients in Egypt, USA, UAE, and Saudi Arabia to deliver tailored digital solutions.
- Delivered projects focused on building scalable and customized Umbraco CMS websites tailored to client requirements.
- Built and configured SharePoint-based solutions, including custom web parts and workflows to enhance team collaboration and document management.
- Developed and maintained .NET Web APIs and MVC applications, ensuring performance, security, and maintainability.
- Designed and implemented automation workflows using Python scripts for data processing, reporting, and integration.

Projects:
- SPEA
- Insurance Authority

Taly For Digital Payments, *Software Engineer* Feb 2024 – May 2025

- Designed and developed highly scalable and secured financial services.
- Developed Backend Applications using C#, ASP .NET Web APIs, ASP .NET MVC, MS SQL Server, Oracle, Entity Framework, ASP .NET Identity, IdentityServer4, Design Patterns and Microservices.
- Developed WCF Services.
- Built and optimized PL/SQL packages and stored procedures, improving query performance by **40%** across core financial modules.
- Worked on SmartVista Products (SVBO, SVFE and SVIP).
- Collaborated with cross-functional teams to gather requirements, design solutions, and deliver high-quality software.
- ***Projects:***
  - CMS Gateway
  - BDC Consumer Migration
  - Taly Tokenization
  - IPN Integration
  - E-Statement

Alkan QSIT, *Software Engineer* Aug 2022 – Dec 2023

- Participated in developing various products for different Industries using the latest web technologies [C#, ASP.NET, ASP.NET Web APIs, MS SQL Server, EF, CQRS Design Pattern, HTML, CSS, Bootstrap, Kendo UI, Angular, JavaScript, TypeScript, RxJs, ChartJs].
- Enhanced the Ticketing System with integrations to GIS, CTI, and IoT systems, resulting in faster incident resolution and improved monitoring accuracy.
- Developed Content Management Systems using Umbraco CMS.
- Developed GIS Applications using ArcGIS API for JS, Experience Builder and Web AppBuilder.
- Extended Experience Builder Widgets and customized others using React and Jimu.
- Led POCs on emerging tools (Umbraco CMS, CoffeScript, Ruby on Rails, Flask, Spyne, Elasticsearch, Nginx), accelerating adoption of modern tech stacks across the company.
- Participated in on-site visits to gather and deliver technical requirements as well as the deployment process.
- Developed Workflow Processes in our Workflow Framework besides the integrations between it and other solutions.
- ***Projects:***
  - ISD-Ticketing
  - EACDP
  - TRD-Visibility
  - COP
  - RCMC
  - DGDA

Education

9-Month Professional Postgraduate Diploma, Oct 2021 – Jul 2022
Information Technology Institute - ITI
Major: Professional Web Development and Business Intelligence (SD).

B.Sc. in Computer and Systems Engineering, Sep 2016 – Aug 2021
Faculty of Engineering, Zagazig University

Technical Skills

.NET
C#, .NET, .NET Framework, ASP.NET MVC, ASP.NET Web APIs (REST), GraphQL, ASP .NET Identity, LINQ, Entity Framework, WCF, SignalR, IdentityServer4, Umbraco CMS, SharePoint.

Programming Principles
Object Oriented Programming (OOP)
SOLID Principles
Design Patterns
Clean Architecture
Algorithms and Data Structures
Domain Driven Design (DDD)
Event Driven Architecture
Modular Architecture

GIS
ArcGIS API for JS, Web AppBuilder, Experience Builder, Jimu

DevOps
Git / GitHub, Azure DevOps, GitHub Actions, Docker.

Front End
HTML, CSS, Bootstrap, JavaScript, DOM, jQuery, TypeScript, Angular, Kendo UI, Chart Js.

Database
Database Design, SQL, MS SQL Server, Oracle, MongoDB.

Other
Familiar with Virto Commerce.
Familiar with BPC SmartVista Suite (SVBO, SVFE, SVIP).
Familiar with SharePoint.
Familiar with NodeJs, Express, Flask, Spyne, WeasyPrint.
Familiar with Descriptive Statistics, Spreadsheets, Business Metrics, Python, NumPy, Pandas.
Familiar with MS Dynamics CRM and Power BI.
Familiar with C, C++ and Java.
SSIS, SSAS, SSRS.
IIS, Azure.

Internships

Huawei ICT Academy, *Intern* Jul 2020 – Aug 2020
Huawei Certified ICT Associate – Artificial Intelligence (HCIA-AI).

InnovEgypt, *Intern* Jan 2020 – Jan 2020
Graduate of InnovEgypt Program for innovation and entrepreneurship as my team got third in the final competition for our idea "SQULAND".

ISCC - Ministry of Military Production, *Intern* Jul 2019 – Aug 2019
Successfully Completed CCNA Fundamentals Training Program.

Certificates and Courses

Expert Domain-Driven Design (DDD) Implementation in .NET, *LinkedIn* Apr 2025

Microsoft Certified in C#, *Microsoft* Apr 2024

"Become a Software Developer" Learning Path, *LinkedIn (11 Courses).* Apr 2022

Data Analysis Professional Nanodegree, *FWD and Udacity* Jul 2021
- 2 Projects
  · *Explore US Bikeshare Data.* · *Investigating TMDB Movie Dataset.*

Data Analysis Challenger Nanodegree, *FWD and Udacity* Apr 2021

Front-End Web UI Frameworks and Tools: Bootstrap 4, *Coursera* Nov 2020

Web Development Professional Nanodegree, *FWD and Udacity* Sep 2020
- 2 Projects
  · *Weather Journal App.* · *Landing Page.*

Web Development Challenger Nanodegree, *FWD and Udacity* Aug 2020

HCIA – AI, *Huawei* Aug 2020
Huawei Certified ICT Associate – Artificial Intelligence
